

ARKAPRAVA GAINÉ

Hyderabad , Telangana , India | codearka2002@gmail.com | Portfolio([arkagme](#)) | Linkedin ([arkagme](#)) | Github ([arkagme](#))

EDUCATION

SASTRA Deemed to be University | Thanjavur, India

Oct 2022 – June 2026 (expected)

Bachelor of Technology in Computer Science & Engineering (spl in IOT and Automation)

Academic Project: Behavioural Rhythm Insider Threat Detection using Bi-LSTMs

[Github](#)

WORK EXPERIENCE

Backend Developer Intern | TARS

Jan 2025 – May 2025

- Co-designed **system architecture** and **database models** using **PostgreSQL**, ensuring seamless integration with other systems.
- Developed 3 key REST APIs in **TypeScript**, incorporating test writing and quality assurance methodologies to enhance backend performance.
- Engineered a comprehensive **database schema** with 2 optimized tables, applying object-oriented programming and relational database principles.
- Documented **API endpoints** with **Postman** collections and Swagger, supporting effective communication within a multi-functional team.

Developer| Saral AI | IIIT Hyd

Dec 2025 – Present

- Architected full-stack migration from Python monolithic backend to Go + Python microservices and React Vite frontend to Next.js with modern UI frameworks, improving system modularity, performance, and developer velocity.
- Engineered platform to support 151% user growth by implementing distributed task processing with Redis message queues, asynchronous worker pools, and horizontal auto-scaling across multiple containerized services
- Owned end-to-end DevOps lifecycle: established CI/CD pipelines, managed multi-environment deployments, configured nginx load balancing, orchestrated Docker containerization, and maintained 99%+ production uptime
- Delivered multiple customer-facing features through agile development, conducting stakeholder demos, peer code reviews, production incident management, and continuous user feedback integration

AWARDS AND ACHIEVEMENTS

- **Achieved 4th position in National level Mercer Mettl hackathon** , building an AR app making geography engaging. **Oct 2024**
- **Achieved 3rd position in Intel One API Hackathon** in KPR College, **Nov 2024**
Coimbatore building a ML face detection based heart health monitoring web-app

CERTIFICATIONS

- Completed Udacity's **GenAI Nanodegree** (Jan–Aug 2025) as a **Bertelsmann Tech Booster Scholar**, gaining hands-on experience in fine-tuning foundation models, **LLMs, RAG, Transformers, Vision models, LangChain, Vector databases** and building custom AI solutions like chatbots and a real-estate agent.

PROJECTS

QueryFlow - Tech Stack : React.js, FastAPI, PostgreSQL, ChromaDB, Gemini AI

[Github](#)

- No-code workflow builder with drag-and-drop interface for visual AI pipeline design and real-time chat interactions.
- RAG retrieval and web search via SerpAPI , text extraction using PyMuPDF, embedding generation & context retrieval.
- REST APIs for document processing, OpenAI embeddings, ChromaDB vector storage and workflow orchestration.

GeoAR - Tech Stack : Unity , Vuforia

[Github](#)

Mercer Mettl Visionary Hackathon 4th Place

- Built an AR geography app using **Unity/Vuforia** with 3D terrain, rivers, and cultural overlays on India's map.
- Simplified complex concepts via intuitive touch controls, enhancing accessibility for Indian students.

Heart Health Monitoring WebApp - Tech Stack : Python , Flask , HTML , CSS , JS

[Github](#)

Intel ONE API Hackathon 3rd Place

- Web app that processes facial video input, extracts per-pixel RGB changes, and classifies results using a Random Forest model; architected with **Flask and FastAPI** backend and a custom **HTML/CSS/JS** frontend

SKILLS

- **Languages:** Python, Go, TypeScript, JavaScript, C++, Java, C
- **Frontend:** Next.js, React.js, Shadcn UI, Vite, HTML/CSS
- **Backend & APIs:** FastAPI, Gin , Flask, Django, Express.js, REST APIs, Server-Sent Events (SSE)
- **Databases & Caching:** PostgreSQL, MongoDB, MySQL, Redis
- **Cloud & Infrastructure:** Google Cloud Platform (Cloud Run, Compute Engine, MIG), AWS, Microsoft Azure
- **DevOps & Tools:** Docker, CI/CD (GitHub Actions), Nginx, Git/GitHub, Linux/Ubuntu
- **Design & Collaboration:** Figma, Postman, Swagger, Firebase, Supabase
